# Ariel Fernando Bidart
Full Stack Developer Node and React

**Buenos Aires, Argentine**

## Profile

I have a strong foundation in the MERN stack, with experience building web applications using MongoDB, Express, React, and Node.js. I am always looking for ways to improve my skills and stay up-to-date with the latest technologies and best practices. I enjoy collaborating with others and sharing knowledge, and I am always open to learning new things and finding innovative solutions to challenges. In my work as a web developer, I strive to create high-quality, user-friendly applications that meet the needs of my clients and users.

## Key skills

React - Typescript – Node - Express - SQL Server - Storybook
Next - MongoDB - Git - GitHub - Rest API's - PostgreSQL - MySQL

## Key courses and training

TypeScript: Your Complete Guide and Handbook - 2023
React: From Zero to Expert (Hooks and MERN) - 2022
JavaScript Algorithms and Data Structures - 2022
Front End Development Libraries - 2022
Build JavaScript applications using TypeScript – 2022
Oracle database programming and administration -2012

## Work experience

### Full Stack Developer
emBlue, Argentina | July 2022 – Present

As a web developer at emBlue Email Marketing, I have leveraged my expertise in the MERN stack to build the company's new app version. Utilizing technologies such as MongoDB, React, Node.js and SQL Server, I have contributed to various projects and gained valuable experience in web development. I am a team player who is dedicated to delivering high-quality products to our clients.

### Mechanical Officer
APR Energy, Argentina | July 2018 – July 2022

I used to work as a maintenance officer where I was responsible for major maintenance of turbines and BOP. In this role, I developed my diagnostic skills as I had to work with different departments to troubleshoot issues. I also utilized my computing skills to create a system for archiving maintenance reports, which improved our efficiency. Overall, this job helped me improve my problem-solving skills and taught me the value of approaching an issue from different perspectives.

### Full Stack Developer
University of Avellaneda, Argentina | Jan 2018 – Dec. 2020

At UNDAV I have focused on geographic information systems (QGIS) and standardization of the institution's databases. Using Docker, PostgreSQL, Leaflet, PHP technologies. We generate spaces so that students and different organizations can develop their own research maps.

### Oil & Gas Mechanical Technician
Tecnimotors, Argentina | Feb 2015 – Dec 2018

As a technician, I have supervised and managed and executed maintenance services. Within a short time in this position, I was performing autonomously to solve problems, as well as in a group.
